

Touring Car 17.5 Blinky Club Regulations 2026/27 Indoor Season

For our Thursday evening indoors at Hednesford Indoor Raceway we want to allow open racing without too many restrictions. However, we do have a few simple regulations for you to follow

- **TYRES:**
We allow open tyres for this class.
- **TYRE ADDITIVE:**
Only tyre additive approved by the club may be used:
- **BODIES:**
Most bodies are allowed apart from the LMH style of shell (This style is reserved for LMH 21.5t class only).
- **MOTORS:**
We will allow any make of BRCA approved 17.5t Motor.
- **ESC:**
We will allow any make of BRCA approved ESC set to blinky mode
- **BATTERIES:**
These must be hard cased Batteries and be either **7.4v or 7.6v LiPo cells**
See LiPo Regulations Here: <https://staffordrcmcc.co.uk/Downloads/Safety/LiPo-Chargev1.pdf>

Link to CLUB approved Additive:

<https://staffordrcmcc.co.uk/Downloads/Additive%20Lists/Allowed%20Additive%20List%20v4.3%202025.pdf>

Should you have any questions please ask a member of our committee.

“The club reserve the right to alter the above regulation in order to make the class better for those involved”
