

## **Touring Car 17.5 Blinky and Modified Class Club Events**

For our Thursday evening and 2026 Summer Series we want to allow open racing without too many restrictions. However, we do have a few simple regulations for you to follow

### **TYRES:**

We allow open tyres on both the above classes. Tyre additive **MUST NOT** be used on a wet track

### **BODIES:**

Most bodies are allowed apart from the LMH style of shell (This style is reserved for the Sportsmans and LMH classes.

### **MOTORS:**

We will allow any motor or ESC if this meets the class entered, i.e. 17.5 blinky or Modified.

### **BATTERIES:**

These must be hard cased and be on the BRCA Approved listings and must only be charged in a LiPo bag or Coffin.

Should you have any questions please ask a member of our committee.
